

## **REACH Regulation (EU) 1907/2006 compliance statement**

IKT Electronics Ltd acknowledges its responsibility under the European Union's REACH (Registration, Evaluation, Authorization and Restriction of Chemicals) regulation to ensure that all products supplied comply with relevant requirements.

A contract manufacturer of electronic products IKT Electronics Ltd is classified as “down-stream user” of products and components according to the REACH directive.

IKT Electronics Ltd ensures that all substances contained within the products manufactured comply with the registration requirements set by the European Chemicals Agency (ECHA) under REACH regulation. We produce for our customers non-chemical products under their documentation, which in their intended and foreseeable use do not emit any substances. Nor do we use substances identified in REACH, in excess of one ton per year in their manufacture. Therefore, IKT Electronics Ltd is not required to register substances to the European Chemical Agency (ECHA) and is in compliance with the requirement.

Our company conducts thorough evaluation processes to ascertain that the materials received through our supply chain and used in the manufacturing of PCB assemblies meet safety and environmental standards mandated by REACH.

IKT Electronics Ltd shall obtain, where necessary, authorizations for the use of substances from Annex XIV list of the REACH regulation.

We assure that all products manufactured by IKT Electronics Ltd comply with the restrictions outlined in Annex XVII of the REACH regulation. We guarantee that none of the substances utilized in our products exceed the prescribed limits and are free from restricted substances beyond permissible levels. The only exception is explicit customer demand for products with solder joints containing lead. IKT Electronics Ltd will inform its customers unsolicited if the products delivered by us contain any of the substances listed in the ECHA SVHC-list in excess of 0.1% of the article by weight.

If required by the customer IKT Electronics Ltd will issue REACH declarations for the delivered products.

Furthermore, IKT Electronics Ltd is committed to maintaining ongoing compliance with REACH requirements by staying updated with regulatory changes and implementing necessary adjustments to our manufacturing processes.
